

# Fibersole Global Expertise

“Innovating Telecom, Security & IT Infrastructure Since 2005”

Fibersole was founded in 2005 with the vision to deliver innovative, high-quality, and cost-effective solutions to the rapidly growing telecommunication and networking industries. Since our inception, we have placed strong emphasis on understanding and fulfilling customer needs by deploying the best available technologies and practices.

## Swarm Defend (China) – Advanced Drone Defense

CROWN

Fibersole has partnered with Swarm Defend (China) to deliver next-generation drone defense technologies for protecting sensitive sites, critical infrastructure, and public spaces. Swarm Defend specializes in multi-layer drone detection, tracking, and neutralization systems with a focus on advanced threats such as drone swarms. Together, Fibersole and Swarm Defend offer cutting-edge Counter-UAS (C-UAS) solutions, combining Chinese technological expertise with local integration, deployment, and support.

- Multi-Sensor Drone Detection: Radar, RF, EO/IR sensors for comprehensive coverage
- Swarm Neutralization: Advanced defense against multiple drones simultaneously
- Mobile & Fixed Deployments: Scalable solutions for field and permanent installations
- Real-Time Monitoring: Situational awareness through integrated command platforms
- Customized Integration: Tailored defense systems for military, government & enterprises

## “Securing the Skies Together”

### Why choose fibersole for Swarm Defend

- Authorized Partnership: Fibersole is Swarm Defend’s local partner in Pakistan.
- Cutting-Edge Technology: Advanced anti-drone systems designed for evolving aerial threats.
- Local Deployment & Support: Fibersole ensures seamless integration, deployment, and after-sales service.
- Critical Infrastructure Protection: Ideal for airports, military bases, government facilities, energy plants, and public events.
- Future-Ready Defense: Together, Fibersole and Swarm Defend deliver comprehensive airspace security against current and emerging drone challenges.
